Squamish Trails Society

The Squamish Trails Society (STS) is a registered, charitable, non-profit society.

We are a group of volunteers dedicated to planning and building multi-use trails within our community. These consist of both neighbourhood loops and main connector trails and are intended for walking, strollers, running, horses and cycling (non-motorized use).

We meet the third Thursday each month (except August).

Trails developed by STS are done so in cooperation with the District of Squamish and become part of our community's park infrastructure when complete.

....committed to representing all non-motorized trail users of the Squamish Valley!

OUR GOALS:

- Develop a masterplan for non-motorized, multi-use trails within the District of Squamish.
- Work with District, Provincial and Federal officials and staff to facilitate planning, development and construction of multi-use trails.
- Proactively and cooperatively work with developers to establish multi-use trails integrated into their projects, thus serving the long term needs of both their developments and the community.
- Work with local contractors and suppliers to maximize the best benefit for our community.
- Be a positive representative voice for community multi-use trail concerns and issues.
- Promote and facilitate the use of Squamish trails.

By becoming a member you affirm your support and belief in a strong Squamish multi-use trail system. Please join us to show this support.
